

Need a high-energy feed?

Mix 30 is a 16% protein, 10% fat liquid feed that is a popular free-choice supplement for your cowherd, especially during the winter and pre-breeding seasons. We have used it on our ranch for years. It is a great energy source, and easy on your pocketbook.

RRR Cattle Service sells Mix 30 by:

- Full tanker loads (about 24 ton) delivered directly to your operation.
- A trailer load (up to 6 ½ or 7-ton capacity) delivered to your operation and we put it out into your feeding tanks.
- An option to check out our gooseneck liquid trailer, with you doing the hauling and returning the trailer back to us.
- You come with your liquid shuttles or containers, and we will fill them from our dedicated Mix 30 storage tanks. Come to the old Swink Sugar Factory during our hours of operation below.

RRR Cattle Service's winter hours* are:

- **Tuesdays** 11:30 a.m. - 2:30 p.m.
- **Wednesdays** 11:30 a.m. - 2:30 p.m. and
- **Saturdays** 9:00 a.m. - 12 noon

at our new location at 1 Sugar Road, Swink. Just weigh at our certified scales at the entrance of the **old Swink Sugar Factory** and step into the beige-colored office there. We'll fill your shuttle or container right up with the high-energy Mix 30 feed from our adjacent storage tanks, re-weigh your rig, and settle up on site.

*Winter hours are Nov. 5, 2024, through at least March 29, 2025 (except closed Christmas Day & New Year's Day).

For further questions, please contact Curt or Susan Russell at: **719-469-2857** or **rrrcattleservices@gmail.com**.

About us:

RRR Cattle Services and Reflected R Ranch are locally owned and operated by Curtis & Susan Russell of Sugar City, CO. As former owners of WW Feed &

Supply LLC, we sold and delivered Mix 30 to many of you previously. Since early 2024, we've set aside the "retirement" notion and we're "back in the saddle" and offer Mix 30 through our Swink location.

Thanks for your business!
